Craftopia... Your Dream Workspace Awaits!

By Juanita Reed, *guest contributor*

Buttons, glue, fancy papers, rubber stamps, ribbons, spools of thread and more...what do you do with them all? This is truly a crafter's dilemma!

Have you ever wished you had a work space where you could do your painting, sewing or scrapbooking? Are you tired of having your supplies stacked in boxes in a spare room and spending more time setting up a "make-shift" workspace than actually crafting?

Whether you are an artist, craftsperson, seamstress, or parent/grandparent that really enjoys inspiring children to create, here is the perfect solution!

Cabinets and Counter Tops... Not Just for Kitchens Anymore!

With the addition a few cabinets and a counter top, any room can easily be transformed into the perfect craft work area. If you have the space, you may even choose to include a small utility sink for ease of project clean-up, washing out

continued on page 2

brushes or maybe to do a bit of potting or flower arranging

Another consideration may be a pull-out unit which will give you an additional work surface, perfect for a sewing machine, paper cutter, or easel, with plenty of extra storage below. Conveniently, the pull-out work surface rolls back into place and looks like another cabinet when not in use.

You Can Never Have Enough Storage Space

The design experts at Atlantic Design Center can also help customize your work area with specially sectioned drawer inserts, roll down storage nooks and fabulous slat walls with hardware

that allows for all sorts of storage flexibility.

Stop by and check out our craft room and put your imagination to work!

Nancy Bither, CMKBD nbither@eldredgelumber.com
207.363.3004

Nancy has a total of 29 years experience in the building supply business. For 21 of those years, she has specialized in kitchen and bath design and sales. As the Director of Design at Atlantic Design Center, Nancy oversees the design standards and project details for each designer. She is certified by the National Kitchen & Bath Association (NKBA) for both Kitchen and Bath Design, and was a founding member of the NKBA Maine chapter. Nancy's designs have been featured in national publications, in addition to an array of local designer showhouses. As a designer, Nancy enjoys the challenge of making each kitchen unique to each homeowner. She especially loves designing other rooms in the home such as laundry rooms, entertainment centers and home offices.
